2/19/75

Dear Mel,

I have to be away for a few days.

I can't say my phone is private, I have reason to believe it isn't, but I almost never let that inhibit me. Nor do others.

But if you have concern, one of two things is the best immediate procedure, prior to your being able to get here, probably an hour's trip.

Write everything out in full detail, sending me a copy and putting one or more away safely;

Talk the whole thing into a cassette and send that. Registered is some protection.

Simcerely,
